Rania Wireless RF Switch

Radio Powr Savr™ and Rania® Wireless RF Switch

wireless occupancy/vacancy sensor and 2-wire switch package

a wireless retrofit solution—designed for easy installation and optimum savings

Great for: conference rooms, offices, classrooms, storage areas, hallways, restrooms and more

Radio Powr Savr™ wireless occupancy/vacancy sensor

- model #: LRF3-OCRB-P
- control type: occupancy/vacancy sensor; auto-on/auto-off or manual on/auto-off
- front accessible buttons make setup easy
- lens illuminates during test mode to verify coverage
- ceiling sensor is easy to mount and reposition

Installs in minutes

- no wires to pull

Saves energy

- sensor turns lights off when room is unoccupied
- occupancy and vacancy options for maximum energy savings

Superior capability

- 10-year battery life design
- exclusive XCT™ technology detects fine movements
- can communicate with up to 10 switches
- add up to three sensors per switch for maximum coverage

Available colour

Sensor and Switch also available as a package, model #: RRF-SA05-B-XXX-M
For multi-locations, use Rania Accessory Switch, model #: RS-SNAS-B-XXX-M

Rania® Wireless RF Switch

- model #: RS-SA05-B-XXX-M
- control type: multi-location switch
- rated for 220–240 V, 5 AX, 40 W min. load, incandescent/halogen, fluorescent, CFL, electronic and magnetic low-voltage, motor loads (4 A)

Retrofit solution

- 2-wire RF switch
- no neutral required/no new wiring required
